Sir:

During the search in the European patent application German patent document DE 18 14 142 was found. In this reference a wiper arm is shown, which has a part 12 with two ends and a tong 8 in the region of its one end. The part 12 of the wiper arm is composed of a sheet metal and bent in a U-shaped manner. The tong 8 has a holding piece 5 on which a pulling spring 3 is hooked. This reference does not teach the new features of the present invention as defined in the amended claim 5.
